

# SeaTrex HD

## Live Feed Trawl Net Camera System

The SeaTrex HD is the most affordable and easy to use live net video monitoring system available. Leave no guesswork on species identification and net performance observation.

### Camera Sled Physical:

- Weight in air: 34lbs
- Weight in water: 17lbs
- Size: 30"D x 16"D x 7" H

### Standard Package Includes:

- Camera Sled
- Wheelhouse CPU
- 10" LCD Monitor
- Thumb Drive Video Recorder
- Power Supply

- **Excellent Picture Quality**

Depending on cable length and condition the SeaTrex HD will put out up to a 1080P video feed. This is accomplished using the latest video compression technology.

- **Rugged Camera Sled / Housing**

The action part of the system (The sled) has been designed for maximum durability and flexibility. Weighing only 17lbs in water you will need less consideration for flotation. Camera viewing orientation is fully adjustable.

- **Operated on Standard Coax type 3rd or 4th wire**

Will operate on just about any third wire on the market as long as the wire is in good condition. Ocean Systems has an optimum wire that can be purchased at the time of your installation

- **Minimum Learning Curve**

No computer software or interfacing. Simply connect the HDMI output to any size LCD monitor and turn on the system on to watch the live action from your trawl net.

### Camera Optical Specs:

- Sensor: 1/2.5" Sony
- WDR: DOL (Digital Overlap) WDR
- S/N Ratio: 51dB
- Sensitivity: ~0.05 lux, in normal color
- View Angles: 90 deg H x 51 deg V

### Lighting:

- Color: 3 Up Neutral White
- Brightness: Up to 1500 lumens (Depending on cable)
- On/Off: Activation at 30 ft depth

### Third Wire Specs:

- Will Operate on Most Standard Coax (must be in newer and in good condition)
- Call for new cable quote for optimum operating cable
